	Question: Comments on course effectiveness
	It would be nice if the course materials had answer keys to go along with the assignments. As it is there are some answer keys for the main book but not for the workbook.
	Question: Instructor Comments
DAHN	I liked that we got to practice on the board. Dr Dahn was helpful and respectful If mistakes were made he had a great way of showing how to do it better.

	Question: Comments on course effectiveness
	Course text was effective for the objectives.
	Amount of assignments were adequate to learn material. Exams effectively tested knowledge of concepts
	Using matrices was effective in helping our analytical approach in 12-tone music. Handouts were superior to the textbook in some cases.
	Lots of awesome material, and enjoyable assignments. Jumping around the text book at the beginning was a bit confusing though.
	I really enjoyed this class, learning about the transition to post-tonal music, and learning the math and thought that goes into that sort of contemporary music.
	The chronological order of introducing concepts was helpful to me as a student. Also the textbook was great and where it wasn't so great the teacher filled in with supplements. For a hard course this was useful.
	Question: Instructor Comments
DAHN	Dr. Dahn does a great job at taking difficult concepts and making them understandable to all students with different learning abilities.
DAHN	Instructor was reasonable in grading and offered sufficient help to students.
DAHN	His explanations were firm and understandable. He gave enough worksheets and readings for us to fully comprehend what is happening in a 20th-century piece of music.
DAHN	The instructor was helpful to students who had questions and created a classroom environment where it was okay to ask again if someone didn't understand. Also the instructor encouraged and listened thoroughly to students in discussions.
DAHN	Best theory class I've ever had, taking this has convinced me that if I were to write music, this is the style I would write in. I thoroughly enjoyed the semester.

	Question: Comments on course effectiveness
	i liked that we used the textbook but we also did a ton of listening and analysis during the class that helped us understand 20th century music.
	The materials we were given fit the pace of the class really well, we weren't given too much, but enough to keep pace with what needed to be learned.
	This course covers so much material in such a short amount of time. I felt like the pacing was great, and really appreciated the way in which concepts were taught.
	Question: Instructor Comments
DAHN	Luke has been one of my favorite teachers at the music school. He makes himself very accessible for students during class and outside of class. He presents the information efficiently with no fluff in a way that is very easy to understand.
DAHN	Luke is such a great teacher. He makes sure that his whole class understands the subject before moving on. He explains difficult subjects so well and is always willing to help his students. You can really tell that he has a passion for what he teaches.
DAHN	Dr. Dahn is fantastic! He is so patient and is willing to go through a concept several times in several different ways until we understood it. He definitely deserves a raise.
DAHN	Professor Dahn is by far the best theory/general music course teacher I've had at my time at the U (and I've had a several theory teachers here). His explanations and the way he structures the class make an effective and understandable learning environment--have him teach more classes and get more professors like him so first and second years can have a strong theory foundation!
DAHN	Best theory type class teacher that i ever had! He is always willing to go above and beyond fro his students, so very talented
